Abstract

Yamagata University has an organization called YU★STEAM, which plans and organizes events for children. In addition to the two project faculty members, 15 faculty members from all faculties of Yamagata University are involved in the center. The goal is to deliver a wide variety of "knowledge" (STEAM education) to the children of Yamagata Prefecture. The Center's mission is to create an environment in which all children in Yamagata have access to rich learning, improve their diffuse thinking and problem-solving skills, and acquire the ability to survive in the future without regional disadvantages.
